

# A1805-00526

## Parabolic Reflector

The Dielectric A1805-00526 Parabolic Reflector is used in conjunction with the F1802B Multisonic Detector to pinpoint leaks in pressurized aerial cables. The parabolic design concentrates weak signal that are normally not detectable. When locked onto the Multisonic Detector Hand Probe, the A1805-00526 makes leak locating from the ground quick and easy. A built-in sight helps technicians to accurately align the reflector to the suspected leak site.

### FEATURES

- Padded Pistol Grip
- Built-in sight
- Weather resistant finish

### SPECIFICATIONS

**Construction:** Aluminum and Delrin™ Nylon

**Weight:** 1.75 lbs.

**Dimensions:** Dish Diameter 10.75 inches  
Depth 6 inches

Note: All specifications and descriptions are subject to change without notice.

### ORDERING INFORMATION

**Part number:** A1805-00526

Note, A1805-00526 is included within F1805K Multisonic Detector Kit
